

The Tech Trek mission is to immerse young women in a world that empowers and encourages them to think of themselves as future scientists, engineers, mathematicians, and computer specialists.

Levels of Support

Tech Trek is a residential science and math camp designed to develop interest, excitement, and self-confidence in young women who will enter eighth grade in the fall. It features hands-on science, technology, engineering and mathematics (STEM) activities, career mentoring, and field trips.

Families pay only a \$50 fee to send a girl to camp, ensuring that girls from a range of backgrounds are able to attend. However, the actual cost per camper approaches \$800. We will need to raise \$51,000 to fully fund 64 campers. Please consider making a donation to support young women in STEM.

100% of your donation will be used to support the Huntsville camp. The Tech Trek experience includes workshops, activities, field trips, and room and board.

___ \$100+	Supporter	Level 1 recognition in Tech Trek Impact Report
___ \$200+	Bronze	Level 2 recognition in Tech Trek Impact Report
___ \$300+	Silver	Level 3 recognition in Tech Trek Impact Report
